# ROAD MAP

Since 2016, with a commitment to excellence and environmental & social responsibilities, **MA TECH PRO IMPORT AND EXPORT TRADING** has rapidly grown into a major player in the Ethiopian market by importing & distributing state-of-the-art and cutting-edge technological products for the following areas of business mentioned below:

By offering comprehensive and tailored solutions that address the unique energy needs and electro-mechanical challenges of our clients, we help our customer to achieve improved productivity & operational excellence through efficiency and effectiveness, as well as minimize your environmental impact and ultimately benefit our universe as a whole.

Our team of experts and staff are organized and equipped with highly educated, skilled, experienced and practical engineers, with depth knowledge of different engineering streams and disciplines like Automotive, Electro-Mechanical, Electrical, Information Technology and Avionic Engineering, ensuring our dedication to deliver top-quality products and services for the specific needs of our clients.

Ultimately, we strongly strive to undertake a mandate of social & environmental responsibilities.

# OUR MISSION

Develop further and progress as an innovative and high-tech product trading company by delivering cutting-edge state-of-the-art electrical and electro-mechanical products that ensure our customers' operations remain uninterrupted, reliable, dependable as well as environmentally friendly.

# OUR VISION

Expanding our network through partnerships with like-minded businesses to practice sustainable energy solutions that reduce CO<sup>2</sup> emissions to promote and attain a carbon neutral and green future.

# CORE VALUES

## **SUSTAINABILITY**

Prioritizing environmentally friendly and energy-efficient solutions through the continuous search of new and improved technology.

## **ETHICS & MORAL VALUE**

Conducting our business with integrity and utmost professionalism ensuring transparent practices and longterm relationships with clients.

## **SYNERGY**

Attributing our services with characters of teamwork and collaboration to deliver products and services of the highest standard.

# Electric Vehicle Charger and Related Products

## PRODUCTS & SERVICES

We specialize in importing and retailing a wide range customized Electric Vehicle(EV) products and accessories, including:

- *EV Chargers with various ratings and features*
- *High-Voltage EV batteries*
- *Conversion Kits and Aftermarket Parts*

With our team of experienced professionals we proudly offer comprehensive services, including delivery, installation, testing, and ongoing support and maintenance.

# PRODUCTS & SERVICES

## Electric Vehicle Charger and Related Products

### ELECTRIC VEHICLE CHARGERS

We offer a wide range of premium quality, reliable and dependable EV chargers compatible with all electrical vehicle types, with different rating, and pricing with free delivery, installation, testing and one-year warranty.

Majority of our chargers can support Wi-Fi, RFID Card, Charging Management Application, OCCP 1.6 & 2.1 application software for payment function by debit or credit card and online payment/mobile banking depending on their levels and customer preference.

#### Level 2

Wall Mounted

Portable or Adjustable

#### Level 3

Wall Mounted  
**AC** Charger

Floor Mounted  
**DC** Charger

#### Level 4

**DC** Powered Station Chargers

# PRODUCTS & SERVICES

## Electric Vehicle Charger and Related Products

**Our chargers** are equipped with multiple safeguard layers to protect against overvoltage, undervoltage, overheating, overcurrent, over-discharge, reverse polarity, short circuits, and any other potential electrical hazards.

These advanced protection features ensure the longevity and lifespan of the chargers as well as your vehicles.

## EV CHARGING STATIONS

A nation wide supply, installation, comissioning, testing and maintenance of EV Charging Stations powered with AC or DC supply mode.

## PRODUCTS & SERVICES

### Electric Vehicle Charger and Related Products

### ELECTRIC VEHICLES HIGH-VOLTAGE BATTERIES

Supply and Replace of Lithium Ion and Lithium Phosphate batteries. with different types, configuration, arrangement and rating.

### ELECTRIC VEHICLES ORIGINAL AFTERMARKET SPARE PARTS AND CONVERSION-KITS

Meeting the diverse needs of EV owners by providing original and aftermarket parts, as well as conversion kits for a seamless transition from combustion engine to electric power.

# Advanced Green Energy Products

The next category list of our products further adheres to our sustainability values with further environmentally friendly products which use alternative source of energies.

## ***We Import***

- Photovoltaic (PV) panels with inverter and backup batteries
- Solar Water Pump with Inverter
- Uninterruptible Power Supply Systems(UPS)

# PRODUCTS & SERVICES

Our Advanced Green Energy products along with our tailored services are capable to accommodate to the following sectors:

- Governmental and Non-Governmental Organizations
- Financial Institutes
- Data Centers
- Hospitals, Clinics and Health Centers, Medical Laboratories and Diagnostic Centers
- Universities, Higher Educational Institutions and Science Research Facilities
- Small and large scale Irrigation Projects
- Hotels, Apartment Complexes, Private Homes, and many more....

## PHOTOVOLTAIC (PV) PANELS, INVERTERS AND BATTERIES

Invest in a sustainable future with our highly efficient photovoltaic solar panel, inverters and power storage batteries transforming sunlight and off-grid power into clean and Direct Current Electricity.

Our comprehensive solar solutions include the installation of inverters to ensure efficient energy conversion and grid integration.

Grade A, Premium Quality Lithium Ion Batteries for storing the harvested grid and off-grid energy.

# Advanced Green Energy Products

## POWER STORAGE BACKUP BATTERY

We offer power storage back up battery with different arrangements, capacity and functions. These energy storage units come in wall mounted, floor mounted, rack mounted and stackable forms.

## PRODUCTS & SERVICES

## UNINTERRUPTIBLE POWER SUPPLY(UPS)

We also provide online and offline UPS units with different size, function, capacity and ratings for a wide range of applicabilities. Our offerings consist of the following UPS types:

*Online High Frequency UPS*

*Online High Frequency Rack Mount UPS*

*Online High Frequency Modular UPS*

*Online High Frequency Industrial UPS*

*Online Low Frequency UPS*

*Line interactive UPS*

# SOLAR WATER PUMP WITH INVERTER

Our solar-powered water pumps offer a reliable and sustainable solution to supply and circulate water in remote areas without grid electricity ideal for farms, factories, etc....

We provide these complete state of the art systems, including solar panels and inverters.

# Mining Machineries, Generators & Pumps

## Mining Machineries

We offer a comprehensive range of machineries and equipments for extracting, washing, sorting, and processing minerals such as gold, diamonds, opals, lithium, tantalum, coal & more.

## PRODUCTS & SERVICES

## Gold Detectors

High-performance Gold Detecting devices with advanced and reliable sensors with high precision and accuracy and all required equipments for gold prospecting purposes.

# Water Well Drilling Rigs & Equipments

We also provide our clients with equipments able to detect water from deep grounds and rigging machineries for extracting and pumping the water at any desired output level.

# Mining Machineries, Generators & Pumps

## Various Types of Pumps

Versatile and customizable pumping solutions with a variety of configurations and technical specifications, designed to meet diverse needs and applications.

## PRODUCTS & SERVICES

## Drill Bits for Various Rigs

Rotary bits, Percussion bits, downhole hammers, and any specialized bits from certified manufacturers.

## PRODUCTS & SERVICES

### Diesel Generators

From light to heavy duty power generators with open type and silent options for any desired purposes, we provide Diesel powered generators from well established brands *with Installation, Testing and Maintenance services*

## Mining Machineries, Generators & Pumps

### Working Tower Lights

We import mobile working tower light for any required purposes with *Installation, Testing and Maintenance services.*

# Manufacturing and Packaging Machineries

## PRODUCTS & SERVICES

We offer a wide range and tailored machinery solutions for a variety of industrial sectors, from small-scale operations to large-scale enterprises.

### Agro Processing Machines

### Textile and Garment Producing Machines

### Sanitary and Detergent Producing Machines

### Plastic Injection and Recycling Machines

### Product Packaging Machineries

## PRODUCTS & SERVICES

### Foam and Acrylic Boards

Foam and Acrylic boards of different thickness and industry standard size with the acrylic boards having over 32 color options

### Vinyl Stickers and CMYK Printing Paint

High quality stickers made from quality PVC for advertising purposes packaged with the following types of ink to finish off the print with UV, Sublimation, Pigment, Inkjet inks.

## Advertising and Printing Machine and Supplies

### Digital Display Advertising Boards

Highly durable LED, LCD, CRT, VFD, PDP and Nixie display boards with different sizes for outdoor advertising purposes.

### Heavy Duty Printers and axillarys

Inkjet printers, laser printers, solid ink printers, continuous ink printers, LED printers, dot matrix printers and A3 printers.
